

Eldercare Navigator is here to serve you and your family, from providing one-on-one consultation to serving as your advocate with the Medicaid system; all of this at no cost to you. These are your benefits—why not make the most of them!

**BECAUSE THERE IS NO PLACE LIKE HOME!**

There are many things that make a home special, but it's the comfort and confidence our patients have in living there that matters the most. That is why our home health aides provide assistance with managing the living activities that our patients no longer find easy, so they may continue to live in their own homes in a safe and comfortable way.

If you or a loved one is in need of home health care services, call us to discuss your options. We can perform a home care assessment in-home, over the phone or at a hospital or care facility. Our intake specialists will work with you to find solutions for your home health care needs.

## 🏠 Referral Partners.

Elite Home Health Care works with many referral sources, including hospital discharge planners, social workers, case managers, family members, physicians, Managed Long Care Programs and Health Maintenance Organizations.

## 🏠 Elite Choice

### WHAT IS A CONSUMER DIRECTED PERSONAL ASSISTANCE PROGRAM (CDPAP)?

CDPAP is a Medicaid homecare program that allows a self-directing senior or a Designated Representative (DR) to administer and assume responsibility for their own care. The flexibility of this program and the way in which it is administered allows you the Consumer or your DR to recruit, hire, train, supervise and if necessary dismiss the Personal Assistant (PA). What makes CDPAP so unique, is that it promotes independence and gives the Consumer a true involvement in the decision making process with his/her own care.

### WHAT ARE THE BENEFITS OF CDPAP OVER TRADITIONAL HOME CARE?

The CDPAP allows a self-directing Consumer to participate in developing their plan of care. You the Consumer decide who to hire and who the caregiver should be, irrespective of licensing limitations and in most instances their family relation. It allows the Consumer to direct the Personal Assistant (PA) to perform personal care tasks or nursing functions that under traditional home care is restricted by the limitation of the caregiver's license.

## 🏠 Eldercare Navigator

**APPLYING FOR MEDICAID IS A COMPLICATED PROCESS. WITH ELDERCARE NAVIGATOR, YOU DON'T HAVE TO DO IT ALONE.**

Eldercare Navigator is an indispensable service that we offer to our New York clients. The complex nature of New York State's Medicaid program can make it difficult to understand the different requirements for clients. Determining eligibility can be a challenge, as well as keeping up with frequently changing regulations. The last thing you need to be worrying about is the possibility of being denied coverage on a technicality or having to re-apply just a few months after acceptance into the program. That is why you want Eldercare Navigator by your side.

### WE KNOW MEDICAID.

Our expert advisors know the Medicaid process inside and out. Their job is to put that knowledge to work for you. Come to Eldercare Navigator and let us worry about the red tape—all you need to focus on is being well and staying well. From helping with paperwork, to assessing which Medicaid plan is best suited for you and securing positive results, Eldercare Navigator is with you every step of the way.
